

2024-02-08, v1.0.23.500

1. #34140 Add more logs for copyFile problem (0 bytes)
2. #34141 Fix 0 bytes copy with PersistentUpdate
3. #34142 Improvement of WifiLog file.
4. New TNX .so library 1.0.23.100
#29283 TNX Terminator FFEF. (Added FFEF to "InboundFrame" frames).

2024-01-25, v1.0.22.505

1. #33087 Update H0Licensing library to v1.2.1
2. #33176 TellNext Landscape without command bar
3. #33199 Activating ErrorMessageLine doesn't work properly
4. #33636 User message when using license 71
5. New TNX .so library 1.0.22.112
#30738 New "DeleteLastScancode" function in LUA scripting procedure.
#31797 New "GetDisconnectReason" function in LUA scripting procedure.

2024-01-08, v1.0.22.504

1. #32707 Error found updating files with PersistentUpdate (fix)

2023-12-27, v1.0.22.503

1. #32295 Popups with user interactions.
2. New .so library 1.0.22.111
#28578 TNX 5250 FieldExit (fix)

2023-12-15, v1.0.22.502

1. #31515 Add New H0L to Legacy version
2. #31354 Make Tnx work with Newland -> NLS-WD1 device
3. #31223 Add "Clear Licenses"
4. #31718 Add two JS functions for translating a string file reading the translation and rule files
5. #31719 Log all JavaScript to Log.txt
6. #31988 Make TellNext work in Dock mode using two screens.
7. #32019 Zebra reset menu option in Configuration
8. New MinSdk version 23 (Marshmallow)
9. New .so library 1.0.22.109
#28832 TNX Pop-up 5250.
#31085 STD License
#30410 New LUA function OnDisconnect()
#31548 New JNI function for logs
#31524 Alt + key to close session doesn't work.
#31505 5250 Field Problem (attribut C++ BYPASS).
#31797 New "GetDisconnectReason" function in LUA scripting procedure.

2023-10-24, v1.0.22.501

1. #31084 Add new menu icons.
2. New .so library 1.0.22.103
#22682 Function LUA setText in 5250 mode.

2023-10-18, v1.0.22.500

1. #28832 TNX Pop-up 5250.
2. #30936 Add SSH ed25519 key compatibility
3. #30937 Adapt to new Bluetooth A12+ rules.
4. New .so library 1.0.22.102
#29282 TNX DAC0 Reconnect.

2023-08-01, v1.0.21.505

1. #29144 LUA.getProperty -> Wifi Level
2. New .so library 1.0.21.103
#28687 TNX Change log directory for MonoApk
#28688 VXT Change log directory for MonoApk
#28817 LUA Using '.' as directory separator.

2023-07-05, v1.0.21.504

1. #28660 Delay using external Keyboard.
2. New .so library 1.0.21.101
#28578 TNX 5250 FieldExit [ClearFieldOnFieldExit=false]
#28577 TNX 5250 FieldExit [ClearFieldOnFieldExit=true]

2023-06-29, v1.0.21.503

1. #28534 Make Widget solution faster.

2023-06-21, v1.0.21.502

1. #28366 Profile takes several seconds to open.
2. New .so library 1.0.21.100
#28291 5250 frames discarded

2023-06-06, v1.0.21.501

1. #27893 Problem with two hosts when network error

2023-05-23, v1.0.21.500

1. #25302 Add SN recovery for iSafe devices.
2. #25310 Integrate Unitech ViaIntent solution into the Scanner Library
3. #25487 Check MetaState with Diamond key - MC33
4. #25498 DataWedge Scanner Library Evolution.

2023-05-11, v1.0.20.506

1. New .so library 1.0.20.100
#27107 VisualStudio 2022 update
#25939 Control of AutoEnter 5250 fields during split scans

2023-03-22, v1.0.20.505

1. #25359 Add Password for SSH solution

2023-03-20, v1.0.20.504

1. #25288 Memor 10 barcode type not correct.

2023-03-17, v1.0.20.503

1. #25118 MultiSession problem (random error) - MC93

2023-03-10, v1.0.20.502

1. #25150 Update Legacy TellNext to new ScannerLib
2. #25117 Pairing scanners problem (ProGlove,SPP)

2023-02-02, v1.0.20.501

1. #24154 Legacy BarScanner scans not working in TerminalView
2. #24191 Beacons not found after turning off the screen for more than 4 minutes...

2023-01-30, v1.0.20.500

1. #23835 Add CipherLab Symbology list.

2022-12-27, v1.0.19.510

1. #22818 Do always -> PersistentUpdate
2. #22827 sendSyncIntent() - add package for sendBroadcast.
3. #23247 Improve Beacon algorithm
4. #22834 No difference between BY_FONT_SIZE and BY_GRID_SIZE
5. #23252 Error while selecting process from list when using Beacons
6. #23410 DataWedge, use two scanners simultaneously.
7. #23592 TellNext not installed on Lollipop 5.1.1
8. #23593 Change license registration to its own Activity
9. New .so library 1.0.19.109
#22983 Log LUA Arrays function error

2022-11-23, v1.0.19.509

1. New .so library 1.0.19.108
 - #22716 *LUA function setText problem with color*
 - #22856 *TerminatorsOnLastField doesn't work when splitting a long barcode*

2022-11-02, v1.0.19.508

1. New .so library 1.0.19.107
 - #22301 *Error Read Embedded Barcode function key*

2022-10-06, v1.0.19.507

1. #21519 ScannerLib tune Zebra scanner handling with profiles
2. #21667 Intermarche Proxy Test Failure
3. #21679 Multi beep from varous frames not working.

2022-09-26, v1.0.19.506

1. #21363 ProGlove bug when changing from portrait to landscape.
2. #20821 64 Bit Library for TellNext Emulator (update)

2022-09-23, v1.0.19.505

1. #21040 Multisession and Proxy does not reconnect all sessions.
2. New .so library 1.0.19.505

2022-09-19, v1.0.19.504

1. #21040 Multisession and Proxy does not reconnect all sessions.
2. #20658 French Translation Screen License
3. New .so library 1.0.19.504

2022-09-15, v1.0.19.503

1. #19150 New JS fuctions added.
2. New .so library 1.0.19.503

2022-09-13, v1.0.19.502

1. #13935 LUA DEVICE QUERY (added new parameter-> MODEL)
2. #20421 Removing external keyboard cause problem with host screen
3. #20426 Create new Scanner Library and use it via TellNext
4. #20453 Add possibility to select charmap from profile config file
5. #20454 Error without text Terminal View
6. #19150 Add a preload JS script before reading config
7. #20821 64 Bit Library for TellNext Emulator

2022-08-22, v1.0.18.519

1. #20421 Removing external keyboard cause problem with host screen (*PATCH*)

2022-07-28, v1.0.19.501

1. #18937 Voice command repeated after calling tellnext.takePicture()
2. #17774 New orientation for custom bar BOTTOM
3. #16199 Add percentage for the battery level
4. #18133 Keyboard icon
5. #19837 Add possibility for full transparency of the keyboard keys
6. #19200 New management of physical keyboards
7. #17775 Set the size of the command bar

2022-06-27, v1.0.19.500

1. #17778 Add Padding Top space to characters on the Terminal View
2. #17861 CloseKey does not close Tellnext
3. #17776 Add param to configure Color Cursor
4. #18745 Add password to access profile and process
5. #18900 Error message in log when using syncSendIntent() from LUA
6. #13935 LUA DEVICE QUERY

2022-06-23, v1.0.18.518

1. #18788 Add new functions for JavaScript. fileToBase64 and sendHttpRequest

2022-06-10, v1.0.18.517

1. #18470 Virtual Keyboard Trigger Problème

2022-06-09, v1.0.18.516

1. New .so library 1.0.18.506
 - #15816 Have access to system information from the LUA
 - #16755 Confirmation Crash
 - #18443 5250 ERROR FF

2022-05-04, v1.0.18.515

1. #17514 Cannot type on USB keyboard

2022-04-20, v1.0.18.514

1. #17084 Widget load problems

2022-04-20, v1.0.18.514

1. #17084 Widget load problems

2022-04-07, v1.0.18.513

1. #16459 Multisession with external keyboard problem changing when typing fast
2. #16455 Bluetooth printing
3. #16310 Printer Config
4. #16771 Change cursor color when background is reversed.

2022-03-25, v1.0.18.512

1. #16261 Some Widget pages are not loaded.
2. #14857 Add an option to have the command bar in the top or left position in landscape mode
3. New .so library 1.0.18.505
#14857 Add an option to have the command bar in the top or left position in landscape mode

2022-03-09, v1.0.18.511

1. #15850 WebView with InternalCommand keys does not respond as expected

2022-03-08, v1.0.18.510

1. #15810 Problems with keyboard for MC33

2022-03-06, v1.0.18.509

1. #15666 CustomKeyboard fixed in LANDSCAPE_REVERSE opens at the wrong place.
2. #15668 Delete all .lcf files from the voixtreme folder
3. #15667 Headset icon not showing the correct state when in the TerminalView
5. Updated Gradle Tools from 7.0.2 to 7.0.4

2022-03-01, v1.0.18.508

1. #15581 Problems with SSH and GSSAPI authentication
2. #15556 Add new option for Fingerprint check with SSH

2022-02-25, v1.0.18.507

1. #14298 The Proglove ring is not taken into account in the event of a connection retry

2022-02-22, v1.0.18.506

1. #14294 Update application, profile and trigger files

2022-02-17, v1.0.18.505

1. #13938 New Session Management (now saving the keyboard state)
2. New .so library 1.0.18.503
 - #14969 TellNext crashes after one or more attempts to connect to a non-existent host.

2022-02-14, v1.0.18.504

1. #13938 New Session Management
2. New .so library 1.0.18.502
 - #1841 Previous TTS and Next trigger field error
 - #1089 Création d'une grammaire permettant d'ajouter un mot clé optionnelle en compélemnt d'une reconnaissance
 - #13946 Parse Widget Page RCL command
 - #14117 DataConnector response size limit
 - #14660 SEND DATA when DAC0 Error

2022-01-31, v1.0.18.503

1. #14324 Memor 10 on Android 9+, beep sound on device, not in headset
2. #14325 Do not start HCM on boot of device, and close the service down when exiting Tnx

2021-12-13, v1.0.18.502

1. #1846 TellNext folder is not created during the installation

2021-12-13, v1.0.17.508

1. #1846 TellNext folder is not created during the installation

2021-12-08, v1.0.18.501

1. #1802 Taille fichier capture TNST
2. #1840 KeyBoard - CustomKeyboard LUA Fonction problem
3. #1838 Make the charMap work with external NICONIX NX-515-43 keyboard
4. New .so library 1.0.18.501
 - #1802 Taille fichier capture TNST
 - #1842 Intent not unregister with function
`Intent.IntentUnregisterAllNonPermanent(..)`
 - #1791 Crash TdcConnection :: RequestSqlSync Revert to previous version
 - #1815 BCEDIT error MATCH

2021-11-30, v1.0.18.500

1. #1826 Close TellNext from MDM
2. #1829 Add SSH proxy like for SSL
3. #1811 Android 10 Problem with Zebra devices using an SSI scanner
4. #1834 Change SSL default folder
5. #1836 Screen Orientation problems in landscape with ProGlove scanner
6. #1822 startActivity from EHS only opens up the SelectActivity (added missing part)
7. #1807 Wifi Information to be removed
8. #1798 Multi process, select new process and host
9. #1796 Key press popup window is not in full size on some devices.
10. #1821 No automatic process selection with BeaconNext active
11. #1835 Bluetooth Printer Timeout not respected

2021-11-09, v1.0.17.507

1. #1827 Add new keyboard layouts to TellNext... 5x15 and 5x16
2. #1817 Virtual keyboard loss after Power Off / On
3. #1825 Writing to fast on an External USB, we loose some characters...
4. #1822 startActivity from EHS only opens up the SelectActivity (added TerminalView class)
5. #1832 Pressing HOME, keyboard not showing

2021-11-05, v1.0.17.506

1. New .so library 1.0.17.109
 - #1791 Change function "BasicLogFormatter::FormatScriptUserTrace" to not check the % and the change to %%
 - #1815 BCEDIT error MATCH

2021-10-13, v1.0.17.505

1. #1808 Honeywell CT40 for Intermarche problems
2. New .so library 1.0.17.108
 - #1810 Choix du custom Keyboard depuis le trigger ne fonctionne pas

2021-10-07, v1.0.17.504

1. #1804 Add SDK for Datalogic, Honeywell and Unitech for retrieving the Serial Number and the Bluetooth MAC
2. #1789 Add new functionality to the charmap
3. New .so library 1.0.17.107
 - #1632 *Error with somme symbol when use Russian language*
 - #1778 *Syntax evolution of DeviceName 5250*
 - #1780 *Error DaCo request in case of TimeOut*
 - #1781 *Error on the treatment of{ r, c, Tl } in the case where the treated zone is empty*
 - #1782 *SSLProxy : Keep Original Host/Port configuration*
 - #1787 *Test Keyboard does not return good value in VT / SSH mode*
 - #1791 *Crash TdcConnection :: RequestSqlSync*

2021-09-30, v1.0.17.503

1. #1782 SSL Proxy
2. #1783 Translate H0 Licensing error messages
3. #1789 Add new functionality to the CharMap
4. #1793 When updating the ProGlove screen and scanning multiple times fast.
5. #1790 Test ASR function needs to be improved. (disabled)
6. Updated Kotlin version from 1.4.32 to 1.5.31
7. Update gradle version from 4.1.3 to 7.0.2
8. New .so library 1.0.17.106
 - #1737 *Add a Test Scanner option from the Burger menu once the session is started (terminator fix)*

2021-08-14, v1.0.17.502

1. #1737 Add a Test Scanner option from the Burger menu once the session is started
2. #1670 Adding access to the TEST MENU from a connected session
3. #1759 Custom keyboard fixed
4. #1774 Add the possibility to upload files with SFTP
5. #1777 Widget Page Tester update - JavaScriptObject
6. New .so library 1.0.17.104
 - #1757 *SAMADA - Problème de déclenchement trigger suite beep sans mise à jour écran*
 - #1754 *5250 mode, parameter 5250 ErrorMsgLine seems not managed*
 - #1727 *Gérer plusieurs accélérateur pour le mode VT*
 - #1722 *VtAccelerator ignoré*
 - #1721 *The AltTermKW functions defined in ScreenTracker, not no effect.*
 - #1720 *The LUA Voice.setTerminators({0x2003}) does not work*
 - #1657 *LUA arrayExists function does not work*

2021-08-06, v1.0.17.501

1. #1770 Update _tnx_process.jcf when opening TellNext.

2021-07-27, v1.0.17.500

1. #1741 Unitech scanner fix (not working correctly in landscape mode)
2. #1767 ViaIntent Unitech
3. #1771 VT SSH - Back Key during login SSH
4. #1772 New version of H0 Licensing SDK 1.1.0
5. #1768 WebView flickering when using Input Text Fields
6. #1740 Save JSON file in same order as before.
7. Updated Kotlin core version from 1.5.0 to 1.6.0
8. #1775 Study the possibility to create an SSL tunnel for 5250 connections

2021-07-21, v1.0.16.509

1. #1771 VT SSH - Back Key during login SSH

2021-07-05, v1.0.16.508

1. #1741 Unitech scanner fix (not working correctly in landscape mode)
2. #1768 WebView flickering when using Input Text Fields

2021-06-29, v1.0.16.507

1. #1767 ViaIntent Unitech

2021-06-10, v1.0.16.506

1. #1691 Changes to "About" and "HoLicense Device Data" menus
2. #1761 Add new ViaIntent solution for Unitech scanner/SpeakerNext
3. Updated .so (1.0.16.102 recompiled for ErrorMsgLine problem)

2021-06-04, v1.0.15.512 (HOTFIX)

1. #1756 Uppercase not displayed on the alphabetic keyboard

2021-06-04, v1.0.16.505

1. #1719 Fix beep volume when changing between loaded processes.
2. #1724 Utilisation APN with TNX
3. #1760 BarScanner Camera not working on Android 9+
4. #1758 Changing between orientations
5. #1756 Uppercase not displayed on the alphabetic keyboard
6. New .so library 1.0.16.102
VT: Trigger update after BEEP without screen change
5250: MsgLine 24
Tellnext: Order of scancodes in the SetTerminator function.

2021-05-19, v1.0.16.504

1. Re-compilation of the cpp lib
2. Fix getDrawable() Context NullPointerException
3. Added native log for FinalizeComponents2() in the cpp lib for random error in unloadProfile()

2021-05-06, v1.0.16.503

1. #1727 Gérer plusieurs accélérateur pour le mode VT
2. #1720 The LUA Voice.setTerminators({0x2003}) does not work
3. #1722 VtAccelerator ignoré

2021-05-04, v1.0.16.502

1. #1745 New version of H0 Licensing SDK 1.0.10 (fix kotlin library import)

2021-04-27, v1.0.16.501

1. #1745 New version of H0 Licensing SDK 1.0.10
2. #1723 Add FIFO functionality for scanning multiple barcodes fast

2021-04-22, v1.0.16.500

1. #1744 Communication with the new HCM service
2. #1721 The AltTermKW functions defined in ScreenTracker, not no effect.
3. #1683 New full configuration taken into account by ZIP file
4. Gradle updated from 4.1.1 to 4.1.3
5. Kotlin updated from 1.4.21 to 1.4.32

2021-03-18, v1.0.15.511

1. #1704 Function keyword in the calculator (final fix in .so)
2. #1707 New version of H0 Licensing SDK 1.0.9 and read license-xxx.lic file
3. #1717 Android 10, Tellnext not able to verify that VoiXtreme is licensed (Sof2Go)
4. New APK certificate
5. #1713 Error on Tdc.disconnect request
6. #1722 VtAccelerator ignoré

2021-02-04, v1.0.15.510

1. #1672 Fix problem with serial number

2021-02-02, v1.0.15.509

1. #1706 Add open license same as K&N and OCP
2. Updated .so library to v1.0.15.097

2021-01-15, v1.0.15.508

1. Quick fix, long click on hamburger menu on the Terminal screen not working with Logcat version, initialization problem after gradle update.
2. Added so "silentMode" created the _tnx_sn.txt and _tnx_muid.txt files
3. #1701 OEMInfo problems on Zebra devices, just after reboot.

2021-01-13, v1.0.15.507

1. #1672 Auto Licensing by MDM - Updated APP ID to 70
2. #1063 CK65 physical keyboard review
3. #1694 Add Honeywell VM1A

2021-01-07, v1.0.15.506

1. #1672 Auto Licensing by MDM - Improved.
2. #1690 TellNext crash when clicking SHIFT on an empty key.
3. #1688 FTP upload via JavaScript is OK, but returns false

2020-12-17, v1.0.15.505

1. #1672 Auto Licensing by MDM
2. #1541 Add HoLicensing SDK (included new SDK version 1.0.8 and updated new parameters)
3. Using new HoLicensing maven library (removed HOlicensing.kt class)
4. Added new flavor in gradle "dbgSame". Debug version with same package name as "logcat" and "full".

2020-11-30, v1.0.15.504

1. #1587 Scanner icon status change (updated scanner icons)
2. #1677 Identical MUID on several terminals (fixed for Android 9 (PIE) devices and Zebra Android 10+ devices)

2020-11-13, v1.0.15.503

1. #1163 - Send a beep to the rings in the event of an error beep.
2. #1663 - Use the 'Manager Console' tools to configure TellNext directly from an MDM (part #1, _tnx_application.jcf)

2020-11-05, v1.0.15.502

1. #1587 - Scanner icon status change

2020-10-22, v1.0.15.501

1. #1654 - Cannot change the TCP port of the DaCo client

2020-10-15, v1.0.15.500

1. #1460 Mode simplifié de la configuration de TellNext

2020-10-20, v1.0.14.507

1. Fix for Pro Glove, disconnected when changing profiles.

2020-10-12, v1.0.14.506

1. #1633 Fix AutoSelectProfile error caused by the #1604 fix in the .505 version.

2020-10-11, v1.0.14.505

1. #1633 Error with LUA syncSendIntent function
2. #1591 SlideUsingKeyboard implemented also for Widget (fixed bug found on some devices)
3. #1640 Add new keyboard layouts for VirtualKeyboard and change for CustomKeyboard to 1 row
4. #1604 ProGlove ring initialization problem in landscape mode.

2020-09-28, v1.0.14.504

1. #1329 Restore display brightness when pop-up messages are displayed
2. #1598 More WiFi logs - Redmine updated - added WiFi log file
3. #1591 SlideUsingKeyboard implemented also for Widget
4. #1460 Mode simplifié de la configuration de TellNext

2020-09-14, v1.0.14.503

1. #1590 Add CustomeKeyboard Matrix for 8 row and 4 col / 4 cols and 8 rows (side)
2. #1598 More WiFi logs
3. #1591 Add new parameters for active or not the slide on all Keyboard (SlideUsingScreen & SlideUsingKeyboard)
4. #1588 Add unpairing barcode for Zebra RS5100 scanner
5. #1612 Default Tnx exit psw set to blank

2020-08-25, v1.0.14.502

1. #1445 Add BEACON configuration file in TellNext profile
2. #1541 Add HoLicencing SDK
3. #1025 Ajouter la gestion des Intents depuis LUA (fix c++ bug)
4. #1082 Remote Widget (remote display) (first test version)

2020-07-15, v1.0.14.501

1. #1540 NotificationBar is available when it shouldn't
2. #1082 Disposer d'une solution Android d'IHM déporté depuis TellNext (POC done)

2020-06-15, v1.0.14.500

1. #1384 Add HubOne Logo
2. Updated Android Studio to 4.0 with gradle version 4.0.0
3. Changed common-library to be @aar file

2020-05-29, v1.0.13.515

1. Widget keyboard fix

2020-04-22, v1.0.13.514

1. Fix anomaly when using two scanners simultaneously (SPP and SDK)
2. #1445 Add BEACON configuration file in TellNext profile
3. #768 Adapt TellNext to new API 26 about app launch

2020-03-26, v1.0.13.513

1. #1158 Specifications change for keycodes... change -3EA to -1001 in Hexadecimal
2. Fix ITM line-wrapping
3. getString improvement in .so library
4. #1284 Fix proxy reconnect dead and NullPointerException
5. #1329 Restore display brightness when pop-up messages are displayed

2020-03-13, v1.0.13.512

1. #1284 Proxy reconnect implemented
2. #1158 Fix bug in keyboard produced by this redmine issue

2020-03-09, v1.0.13.511

1. #1346 Line wrapping in VT mode
2. #1335 TellNext Trace is now in 'nextApps/tellnextDebug' directory

2020-03-03, v1.0.13.510

1. Fix hardware key problem with "convert" function related to issue #1158

2020-03-03, v1.0.13.509

1. #1284 Allow to auto-reconnect When using ProxyServer

2020-02-23, v1.0.13.507g

1. #1271 New Scanner Type 111 for Zebra Scanners

2020-02-19, v1.0.13.506

1. #1308 TellNext error when you are on the hardware keyboard test screen and click on the menu icon.
2. #1309 CharMap File TC25 and TC52
3. Debug version will now always write the logcat to the nextApps folder.
4. Problem in PIE with printer message appearing with error message when there was no error
5. Fix headers 5250 (KN Colombia)

2020-02-03, v1.0.13.505

1. #1268 Problems printing with ZD420 printer in USB mode (new Timeout parameter)
2. #1112 Shift on alphabetic keyboards with symbol fonts

2020-01-23, v1.0.13.504

1. #1174 New VirtualKeyboardWidget and CustomKeyboardWidget options in _tnx_process.jcf file
2. #1172 CustomKeyboard.CustomKeys parameters are now deprecated.
3. #1158 In Virtual/Custom keyboard, new keys to change the current layout to another
4. #1033 Lua 'Net' library to send files
5. #1025 Lua 'Intent' library to manage Android services and intents
6. #630 Lua 'User' library to manage User Dialog Box inputs (by keyboard).

2020-01-03, v1.0.13.503

1. #629 - Widgets, Picture in HTML page - terminated, when the camera is active the keyboard, voice and scanners are all blocked
2. #1086 - Bold attribute to specific color
3. #1153 - Fix SSH2 Georgia Softworks freezing

2019-11-26, v1.0.13.501

1. #1025 - Ajouter la gestion des Intents depuis LUA - Partly done, JavaScript version implemented.

2019-11-21, v1.0.13.500

1. #965 - Intégration de la bague PROGLOV MARK II dans nos solutions

2019-11-21, v1.0.12.515

1. #1104 - Zebra status bar bug
2. #1105 - Calibrate reports error, even when all was ok.

2019-11-19, v1.0.12.514

1. #1094 - Restitution état du contrôle des boutons système et des notifications

2019-11-15, v1.0.12.513

1. Broadcast sometimes slow between Tnx Barscanner and TellNext. Added priority flag for quicker communication.

2019-11-11, v1.0.12.512

1. #1032 - Remplacer la saisie en clair du password de sortie de TellNext par une saisie masquée
2. #993 - Swipe keyboard crash
3. #1005 - Keyboard display issue

2019-11-06, v1.0.12.511

1. #1080 - Keyboard charmap with model and hardware keyboard - MC93
2. #1081 - TellNext failing when VoiXtreme files missing

2019-11-05, v1.0.12.510

1. Fix problem with inverse display on VT

2019-10-29, v1.0.12.509

1. Minor bug fix of previous version

2019-10-28, v1.0.12.508

1. #1068 - The SSI Zebra APP for connecting a SSI scanner was overlapped by BT Pairing
2. #1024 - Print by USB
3. # 959 - CustomKeyboard width not adjusted to SIDE keyboard when not in fixed mode

2019-10-25, v1.0.12.507

1. #1069 - ASR restart using ProxyServer

2019-10-17, v1.0.12.506

1. #1058 - Keyword to trigger the internal scanner, meta key "FFFE"
2. #1034 - Meta key "FFFA" to generate delay

2019-10-16, v1.0.12.505

1. #1033 - Ajouter des fonctions d'envoi et réception de fichiers: *sendFile()* and *sendFileAsync()*
2. #629 - Widgets, Take a Picture in HTML page *//: Blocking keyboard and scanner input.*

2019-10-14, v1.0.12.504

1. Version 502 and 503 did not accept dual installation of TellNext (demo and full).
2. Final fix for Redmine issue #1022
3. Fix "Test Print" in debug version (old path to file)

2019-10-11, v1.0.12.503

1. Redmine #1005 - Custom Keyboard landscape
2. Redmine #1022 - Memory Leaks with widgets and virtual keyboard show / hide
3. Redmine #951 - Add 'KILOS' voice input mode
4. silentMode failed with new implementation with #629

2019-10-03, v1.0.12.502

1. Redmine #629 - Widgets, Picture in HTML page

2019-09-27, v1.0.12.501

1. Redmine #990 - Ajout de paramètres dans ynx_Application pour ne pas toucher au BT au lancement et arrêt de TellNext
2. Redmine #993 - Crash TellNext durant swipe clavier

2019-09-16, v1.0.12.500

1. Redmine #963 - WebView clear cache on every restart of the application
2. Redmine #766 - Manage Navigation Bar on Honeywell

2019-09-06, v1.0.11.526

1. Redmine #854 - Create a text file with detailed version when launching
2. Redmine #880 - Included Honeywell barcode types with the Intent Scanner
3. Redmine #959 - CustomKeyboard width not adjusted to SIDE keyboard when not in fixed mode
4. Redmine #960 - CustomKeyboard should be configured to close after one keystroke

2019-09-03, v1.0.11.525

1. Redmine #953 - Added CAPSReversed option for Alpha keyboards
2. Redmine #896 - New Java functions added: toggleVirtualKeyboard() etc... accessed by JavaScript using Widgets
3. Redmine #896 - TinyWidgets.js updated

2019-09-02, v1.0.11.524

1. Implement ASR "KILOS" and "TRIPKLEX"

2019-08-22, v1.0.11.523

1. Fix erratic DeviceName substitution by [0IP]
2. Fix keyboard commands from LUA

2019-08-13, v1.0.11.522

1. silentMode implemented
2. Added logs of available applications on the device

2019-08-06, v1.0.11.521

1. New JavaScript functions for TinyWidgets, showVirtualKeyboard(), showTelnetScreen(), showWidgetScreen(), log()
2. Updated TinyWidget.js and included an initialize() method to be used when the HTML page was loaded

2019-07-31, v1.0.11.520

1. Added user error messages in loadPageTiny() if html page cannot be parsed
2. Fix 'file not found' error in loadPageTiny().

2019-07-29, v1.0.11.518

1. Made important changes for Widget Thread management
2. New JavaScript functions for use with TinyWidgets (saving variables between sessions)
3. Added release .so library for the logcat flavor
4. Added loadPageTiny() in lua

2019-07-24, v1.0.11.517

1. Implement 'DisplayMono' feature.
2. Fix SSH2 'user auth succes' message management.
3. Error message was wrongly shown when exiting Calibrate (random problem)
4. Fixed crash when exiting or entering TellNext after a reboot on Zebra devices (related to the EMDKManager)
5. Bugfix: Internal scanner stopped working after re-connect of Bluetooth Headset when in the TerminalView

2019-07-19, v1.0.11.516

1. Widget button press fix
2. TDC fix returned parameters.
3. TDC back return codes to LUA application
4. Fix screen orientation bug on TC20 when changing from portrait to landscape
5. HID scanner fix (did not show processes when returning from BT Pairing)
6. Volume UP and Volume DOWN fix for Zebra Devices
7. Wrong parameters sent to BT Pairing when HID. ShowUnpairBarcode was sent causing problems if set to true
8. Logcat function introduced

2019-07-01, v1.0.11.512

1. Fix for ColorCode as LUA expression.
2. Redesign about result codes of Tdc (Telnet Data Connector) in LUA scripts..

2019-06-06, v1.0.11.511

1. Fix for Zebra default values (EMDK)

2019-05-30, v1.0.11.510

1. Fixed bug with the new LANDSCAPE_UPDOWN orientation option
2. Added new control with error message in case that VoiXtreme Calibrate failed to start or to complete its task.
3. Made check against Calibrate more reliable

2019-05-28, v1.0.11.509

1. Added LANDSCAPE_UPDOWN orientation
2. Changed kiosk settings, removed "Off" (HomeButtonOff is now HomeButton, etc...).

2019-05-23, v1.0.11.508

1. Fix GetPrevious LUA function, and lost of previous trigger value in some cases.
2. Add kiosk settings on application configuration file (HomeButtonOff, RecentButtonOff, NotificationPullDownOff).

2019-05-14, v1.0.10.507

1. Fix Welcome message.

2019-05-07, v1.0.10.506

1. Fix TCP Log output.

2019-05-03, v1.0.10.505

1. Implement keyboard detection for MC33 Zebra devices to use charMap sections.
2. New _tnx_charMaps.jcf sections with MC33 hardware keyboard mappings.
3. Fix TeDaCo disconnection command (02)
4. Fix Process.disconnectAsync() by LUA

2019-04-26, v1.0.10.504

1. Implement TeDaCo Async Requests
2. Fix multiple NFC headset reconnections

2019-04-10, v1.0.10.503

1. Add BcEdit section to manipulate barcodes (Filter + Insert)
2. Change SccToSccMappings to allow multiple keystrokes for one ScanCode

2019-04-04, v1.0.10.502

1. IntentScanner fix for Datalogic, new config options: HasCategory, Category. Should be set to HasCategory=true and Category="" on Datalogic devices.
2. IntentScanner new options: CodeType, if set, The receiving application will receive what type of barcode that was scanned.
3. Added new options in the _tnx_charMaps for devices with a hardware keyboard using "ABC" keys.
4. Bug fix when configuration file _tnx_charMaps.jcf was missing (TellNext crashed).
5. Bug fix with lua script. Keyboard.hideVirtualKeyboard() opened the keyboard instead of closing it.
6. Bug fix in Log TCP, that causes delay on close
7. Allow FloatingLicense '86' for TellNext + Voice
8. New LUA Csv.erase function

2019-03-26, v1.0.9.508

1. Fix crash when changing display orientation (Landscape/Portrait) on ZEBRA devices.

2019-03-18, v1.0.9.507

1. Fix SSI connection when using AutoProfile/AutoProcess
2. Added /sdcard/TellNext/HardwareKeyboardTrace.txt. Created by the Hardware Keyboard Info option in the Test Menu. Will record all keys pressed.

2019-03-14, v1.0.9.506

1. Fix Expected option in ASR input

2019-03-13, v1.0.9.505

1. Fix ENTER internal command as 2031 in VT/ANSI emulation
2. New Available user defined scancodes from 101A to 2030 VT/ANSI emulation
2. Change `_tnx_process.jcd` file to replace scancode enums by strings

2019-03-06, v1.0.9.504

1. Reconnect SSI/SDK Scanner fix, did not work well on Zebra devices, confirmation dialog added
2. New LUA functions `Scanner.getSymbologie()`, `Trg.setPrevious( n)`, `Trg.getPrePrevious()`

2019-03-05, v1.0.9.503

1. Fix profile option when `DisplayOff=0`, the terminal was still turned off
2. **NEW:** New option with Long Click in the TerminalView screen, Reconnect Scanner, to reconnect a SSI/SDK Scanner device

2019-03-04, v1.0.9.502

1. Fix `LockKbdDo` option, can say voice keywords
2. Fix `VirtualKeyboard.ShowOnKey`
3. The Android END-CALL key is mapped to F24

2019-02-27, v1.0.9.501

1. Added Kuehne Nagel custom logo
2. Added "Bluetooth" section in `_tnx_application.jcf`.
You can now turn Bluetooth off/on when entering/exiting the application
3. Changed the "Bluetooth" section in `_tnx_profile.jcf`. You can now turn Bluetooth off when closing a profile. (Needed for BUDGIE and Honeywell 8670 scanners)
4. Fix GUI log even in release mode.

2019-02-22, v1.0.9.500

1. Fixed Auto-Trigger Trigger number log...
2. Intent with extras to launch TellNext by other application: profile, process, host and login parameters.
3. New VOLUME licensing for special customers.
4. New Widget mode - TinyWidget
5. Fix `_tnx_keyboard_Widget.jcf` style problem. It can now have different styles from the VT/5250 keyboard files.
6. Fix ZEBRA installation lock buttons
7. Fix missing ".tnst" capture TimeCount and Trigger frames.
8. Fix connection time clear display "connecting to:...".

2019-02-11, v1.0.8.505

1. Fixed TN-VT backspace management...
2. Implement VT_UTF TranslatorType for UTF8 sequencex in DEC_VT flow

2019-02-06, v1.0.8.504

1. Fixed bug, not always changing to Process List when connecting SSI Zebra devices...

2019-02-05, v1.0.8.503

1. Implemented KeyByWordClick as an array of scancodes (Process/Display/Tactile)

2019-01-29, v1.0.8.502

1. Manual screen captures available. Default file (TellNextTrace.tnst) located in /sdcard/TellNext/Application.
New bat file (ImportCaptures.bat) to import tnst files.
2. Widgets keyboards added (_tnx_keyboard_Widget.jcf)

2019-01-22, v1.0.8.501

1. Hardware Keyboard Info stopped working in previous version, crashes TellNext
2. **NEW:** Implemented BrightnessTime/BrightnessLevel - Control screen brightness, dim screen after x seconds (Issue #182)
3. **NEW:** Implemented CPUAlways on, true if to never turn off CPU (when screen is turned off)(Issue #182)
4. Changed DisplayOff from profile.jcf/Display.UserInterface.DisplayOff to profile.jcf/Display.DisplayOff(Issue #182)
5. **NEW:** Implemented battery log (_tnx_battery_level.txt in Application) and customized warning when level gets too low(Issue #177)
6. **NEW:** Added Serial Number to Main Menu/About menu (Issue #115)
7. **NEW:** For ZEBRA, added 'orange' keyboard state icon in the CommandBar if the hardware color key has pressed.
8. **NEW:** Added ShowUnpairBarcode option (Issue #186)
9. **NEW:** Added ScanByClick allowing to run the scanner beam to read barcodes when clicking on the emulator display.
10. **NEW:** Added SoftTriggerKey allowing to run the scanner beam to read barcodes.
11. Fix error with ScannerType 7 (when connecting second time)
12. Fix Widget when switching between processes. (Issue #180)
13. Move ConsecutiveTimeout on profile configuration, from Scanner.sdk to main Scanner object. It applies to all scanner types.
14. Fix 5250 emulation FocusFieldOnClick feature
15. Fix The SizeLimit option in User Log file
16. Fix LUA function PlaySound() implemented, with "\$" prefix feature for Application path.
17. Fix LUA tokens to allow access to ScreenTracker variables as {#nn}
18. Fix ExitOnLastHostClose when session is closed by Host.

2018-12-21, v1.0.8.500

1. Changed _tnx_profile.jcf/d Sdk Scanner part
2. **NEW:** Pressing back when viewing the Profiles will lead you to the MainMenu where you can exit TellNext
3. Logs added to check strange bugs at French client, TerminalWindow is not loaded, View.post(Runnable) bug/failure
4. Changed VoiXtreme engine checkAlive check to be more accurate.
5. Compilation errors for Honeywell Marshmallow, requestWindowFeature() not working properly
6. Fix .so library when testing keyboard for 5250 emulation
7. TellNext does not automatically unpair scanners when returning to the Profile menu. But unpairing will be done when exiting/entering TellNext

2018-12-07, v1.0.7.516

1. **NEW:** Added DisplayOff in profile.jcf. Manage the delay before the screen turns off after inactivity (in seconds).
0 = never turns off, -1 = use system value

2018-12-11, v1.0.7.517

1. **NEW:** Only for Zebra devices: Home and Recent buttons are deactivated. Also the user will be unable to pull down the Navigation bar.
Everything is restored to normal when you exit TellNext.
2. **NEW:** WakeLock was added. When you turn off the screen TellNext will continue to work.

2018-12-07, v1.0.7.516

1. **NEW:** Added DisplayOff in profile.jcf. Manage the delay before the screen turns off after inactivity (in seconds).
0 = never turns off, -1 = use system value

2018-10-30, v1.0.7.515

1. Issue #152, Large barcodes on Landscape Scanner Test FIXED
2. Issue #154, Internal scanner doesn't respond
3. Issue #155, RS507 SPP removing battery FIXED
4. Issue #156, Ignore same error messages
5. Issue #157, TellNext crashes when turning the device into inactivity FIXED
6. Fix bug Widget (WebView)

2018-10-18, v1.0.7.508 - 514

1. Proxy server fix

2018-10-11, v1.0.7.507

1. Issue #151, Scanner Test menu - Landscape mode
2. Issue #152, Large barcodes on Landscape Scanner Test FIXED

2018-10-10, v1.0.7.506

1. Unknown changes by David in the .so

2018-xx-xx, v1.0.7.505

Skipped

2018-10-05, v1.0.7.504

1. Fixed proxy and voice (.so) - Voice continued to be active when connection was lost causing problems when re-connecting.

2018-xx-xx, v1.0.7.503

Skipped

2018-10-01, v1.0.7.502

1. Issue #139, Changing portrait to landscape, blank screen
2. Issue #149, ExitOnLastHostClose
3. Fixed widget for Vincent, missing method (widgetButtonClick) in .so library.
4. Entering or leaving TellNext will now always force an unpair of all bluetooth devices.
5. **NEW:** "BluetoothHID" in the _profile.jcf configuration file. We now allow scanners in HID mode.
6. Backspace key fixed on software and hardware keyboard.
7. David, fix Put To Ligth, Widget (WebView), Triggers
